## WORK EXPERIENCE

### SOFTWARE ENGINEER

Fetch Truck Rental | 2019 – Present

- Develop and improve multiple projects making up the Fetch product
- Manage product roadmap and sprints; lead product meeting
- Completed multiple large-scale integrations (Stripe Identity, Digisure, Avalara, The Home Depot)
- Designed exceptional user experiences, with user stories and mockups
- Managed hiring, from initial phone calls to projects and final interviews

### DEVELOPER I

SUPPLY.com | 2018 – 2019

- Migrated large-scale e-commerce website from JS/HTML to React
- Responsible for parity between the legacy site and the new React site
- Collaborated remotely with teams at sister-company Build.com in Chico
- Implemented proprietary CMS

### TAPROOM MANAGER

Jekyll Brewing | 2016 – 2017

- Lead a team of 10 employees in providing excellent customer service
- Audited taproom procedures and restructured inventory, staffing, and merchandising systems
- Scheduled, planned, and promoted brewery events

---
